About Me

Hello my self Rushikesh Ravindra Jogadand, I'm a front-end developer and In front-end developer I haven't any industrial experience but I had created same projects which I included in project section. This all projects are responsive.

Projects

• Restaurant Website

This website created using html css and some jQuery. This website design is absolutely responsive for all the devices like mobile tablet laptop and desktop also.

• YouTube Clone

This YouTube Clone is created using html vanilla css jQuery and little bit javascript. It's just UI design only, It's also responsive for all devices.

• E-commerce Website

This is single page website. This E-commerce Website it's actually amazon clone created with html css bootstrap jQuery.

Experience

Front-end Developer

2021 - 2023

With front-end developer I am fresher now but I had created above that projects which I mentioned in project section. In this projects I use html css javascript and some framework like bootstrap jQuery.
